Shahbagh, Dhaka, Bangladesh

EDUCATION

• Khulna University of Engineering & Technology

BSc. in Computer Science and Engineering

◦ GPA: 3.68/4.00

February 2020 - August 2025

Khulna 9203, Bangladesh

ACHIEVEMENTS

Ranked 5th - PSTU IT Carnival Programming Contest 2024

November 2024

Ranked 35th - Khulna Regional Inter University Programming Contest 2024

November 2024

Ranked 59th - UIU Inter-University Programming Contest 2025

January 2025

Ranked 170th - ICPC Dhaka Regional 2024 - DIU

January 2025

1st Runners-Up (PHP Stack) - Learnathon 3.0, Geeky Solutions & Brain Station 23

May 2025

Selected as one of the Top Team - BitFest KUET Datathon 2025

January 2025

Specialist - Codeforces (Max Rating: 1501)

3 Star - CodeChef (Max Rating: 1766, Country Rank: 294, Global Rank: 7278)

EXPERIENCE

Kona Software Lab Ltd. – Graduate Engineer (iOS)

June 2025 – Present

Ostad – Teaching Assistant (Remote) – Coding Interview Preparation

January 2025 – July 2025

Geeky Solutions & Brain Station 23 – PHP Stack Intern (Learnathon 3.0)

February 2025 – May 2025

SKILLS

• **Programming Languages:** C, C++, Python, Java, Swift

• **Web Technologies:** HTML, CSS, Bootstrap, React, PHP, Laravel

• **App Development & Frameworks:** Swift, SwiftUI, Java, XML

• **Database Systems:** Firebase, Oracle, MySQL

• **Data Science & Machine Learning:** TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib, PyTorch

• **AI & Developer Tools:** OpenCode, Cursor, GitHub Copilot

• **DevOps & Version Control:** Git, GitHub Actions, Docker, SourceTree

• **Tools & Technologies:** VS Code, Android Studio, Xcode, Figma, Postman

INDUSTRIAL EXPERIENCE

iOS Banking Applications

2025 - Present

iOS Engineer with over 1 year of experience building and maintaining production-level mobile banking applications, focusing on performance optimization, secure transaction workflows, and scalable feature development using Swift and iOS frameworks.

PERSONAL & TEAM PROJECTS

Neural Sound - Text to Speech App

2025

An iOS application that converts text to speech using high-quality free neural voices. Focused on smooth UI/UX and efficient audio playback.

Vocal Music Separator AI - Music processing app

2026

ML-powered iOS app for music separation, karaoke generation, and audio/video processing using AVFoundation, AVAudioRecorder, FFmpegKit, and vocal/instrumental separation models.

EXTRA CURRICULAR ACTIVITIES

General Member - SGIPC

Enhanced problem-solving and teamwork through competitive programming discussions.

Event Organizer - BitFest 2025

Organized the Inter-University Programming Contest (IUPC) and managed event logistics.
